

# Brain Development Birth to 12 years

---

**Presented by Rochelle Sherlock, MA.**

Join us to learn about the neurodevelopment of infants, toddlers and young children. The workshop will explore how brain development is affected and altered as a result of a variety of environmental influences. We will highlight how a child's brain is impacted by the exposure to violence. Learn what you can do to support healthy brain development and optimize learning.

**Date: April 17 & 24 (2 part series)**

**Time: 6:30-9:30 pm**

**Location: Solano Family & Children's Services,  
420-F Executive Court, Fairfield**
